

The logo for UNGER, featuring the brand name in a bold, green, sans-serif font with a white outline, set against a white background.

Quality Tools for Smart Cleaning

- 
- A large, industrial-grade RO-filter machine is shown in operation. It features a prominent vertical cylindrical filter housing with a clear section showing the internal resin bed. The machine is equipped with various hoses, gauges, and a green motor at the base. A long, flexible green brush attachment is mounted on a boom extending from the machine towards the glass facade of a modern building. The scene is set outdoors on a paved area, with the building's glass and metal structure visible in the background.
- High pure water production, approx. 700 l/h*
 - Perfect for large surfaces
 - Resin polishing filter

**THE HIGH PERFORMANCE RO-FILTER
FOR REAL PROFESSIONALS**

NEW!

DOUBLE MEMBRANE

- extended water output, approx. 700l/hour*

RESIN FILTER FOR POLISHING

- 100% pure water production

COMBI PRE-FILTER SEDIMENT & CHLORINE

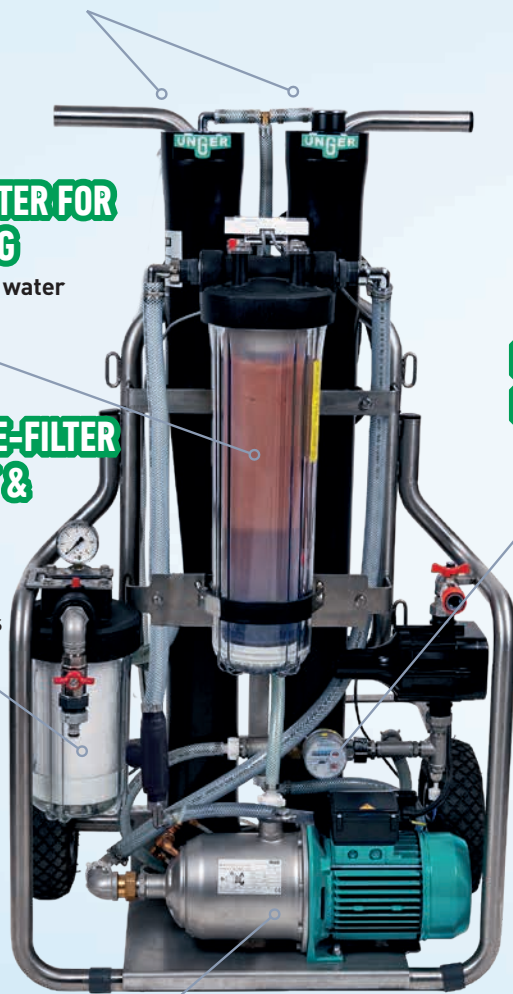

- to protect both membranes

PURE WATER FLOW METRE

- Displays the produced amount of pure water

EXTRA HIGH POWER PUMP

- supports the high water flow

TOP EQUIPMENT

- Perfect for cleaning of large glass fascades – more water on the surface, for rinsing and cleaning
- Suitable for two workers with no loss of water capacity or one worker with increased performance
- Ideal for tank filling
- Automatic pump control with dry run protection
- High quality, corrosion-resistant stainless steel frame
- Built in TDS meter monitors water and resin quality

TECHNICAL DATA R060C

Ambient temperature of system	5 - 40°C
Water temperature	5 - 25°C
Inlet pressure	0-6 bar
Max. operating pressure	max. 10 bar
Power supply (pump)	230V / 50Hz / 1,1kW
Height	123cm
Width	75cm
Depth	51cm
Weight	83 kg

ORDER-INFO

Part N°	Pack	€ / piece
R060C	1	

* At 18°C water temperature, 4bar water pressure, without counterpressure at the water outlet.
